THE COLLABORATION

EDG + ELECTRIC PLAYHOUSE

We are thrilled to announce the next positively charged collaboration with New Mexico-based Electric Playhouse. This latest partnership teams up EDG's long-term reputation in the exhibition traveling space, creative entrepreneurial spirit and international cultural prowess with the artistry of Electric Playhouse's digital and immersive designers, developers and creative technologists.

The digital hands-free experience is a mix of games, artistic interactives, and experiences that are ready for exploration. Using projection mapping and sensors, movements are tracked for the interactions without the need for headsets or other wearable devices.

"We have been waiting for the next best exhibition-experience to rival MythBusters, Sherlock Holmes, Beyond Rubik's Cube and Dinosaurs. It is finally here!"
